Poster sessions - A visually-appealing presentation of information, which may include drawings, photographs, charts, graphs, and textual data. Poster sessions allow viewers to study information and discuss it with their presenter one-on-one. The poster should efficiently communicate your topic to the audience. Poster sessions may present a description of an innovative idea or program, an analysis of a practical problem-solving effort, or a report of a research study in progress or that has been completed.

ASCA Talks sessions- ASCA Talks are the ASCA version of "TED talks." These sessions are approximately 15 minutes about a topic that is trending and relevant in our field. Please submit a link to a brief 30-second to 1-minute video clip of your presentation with your proposal.

Roundtable sessions - These are 60-minute pre-planned discussions that are designed to facilitate conversation among peers on a topic relevant to the field (Please note: there is no A/V available for roundtable sessions.)

Program proposals for the aforementioned session types should demonstrate clear evidence of planning, organization, content expertise or experience, clearly stated learning outcomes and objectives, and be relevant to the field of student conduct.

When submitting your program proposal, please keep in mind the following:

- Provide accurate information for any and all co-presenters.
 - Scheduling conflicts may occur and may not be resolved if all co-presenters are not submitted to the Conference Committee in a timely manner.
- The abstract provided in the proposal will be included in conference promotional materials.
- Presenters will be responsible for supplying all display materials and handouts.

Program proposals will be reviewed by the following criteria:

- Abstract, description, and learning objectives are clearly articulated
- Abstract and description are clearly related to student conduct
