

Hello !

Only a little over two months until we dive into our 31st Annual Conference in Jacksonville, Florida! This year's annual conference will take place from Wednesday February 6, 2019 until Saturday February 9, 2019. Similar to the bodies of water that our conference has been held near our field is fluid. This year's theme, [Navigating the Journey](#), works to highlight the following:

- Reflecting on the currents that we have created, the journey we are currently on, and working to map new routes for those who follow;
- Adapting to the changing needs of our community members by assuring that neither ourselves nor our processes are becoming stagnant.

See below to get your registration on, and begin planning for one of our most exciting conferences of the year.

Why did you choose ASCA you ask?

Over the year of my career I have been a member of many local, regional and national organizations. I have had the opportunity to create great friendships and develop a strong collegial network. Each organization has helped me to develop into a strong professional in the field of Student Affairs.

My passion to help students overcome adversity and mature into strong contributors of our society has driven me to explore several areas within student affairs. Community Standards, Conduct or Judicial Affairs, ever title you prefer, allows me to help students navigate a difficult and confusing situation. Each contact with a student is an educational opportunity, a chance to help them grow and take on the world.

ASCA has provided me a plethora of opportunities to hone my craft in Community Standards. From the Student Organization Network Conferences, to the Gehring Academy to the State and National conferences, I am continually surprised and impressed with the variety of options offered to members of my field. I am blessed to work with brilliant minds who seek to create campus climates that engage our students in art of negotiation and the value of caring.

The excitement among conference members is contagious. The conference committee is dedicated to providing an experience that will offer something for every participant. From the case study, to the law reviews to the individual sessions, attendees will find a program that will challenge them to be a better professional. And that is the long and short of why I chose ASCA.
