Concurrent Programs

Various topic areas serve as integral tools for you and your institutions, particularly during this time of change within higher education. We expect that sessions most relevant to attendees will address the current and future educational environment on topics such as:

- Pandemic response and impact
- Strategic planning
- Leadership
- Fiscal responsibility
- Law and policy
- Code revision
- Mental health
- Sexual misconduct
- Threat assessment
- Behavioral intervention
- Free speech
- Academic integrity
- Assessment
- Student organizations, and more

We hope that presenters will explore new topics relating to our field and encourage sessions highlighting the diverse institution types and individuals that impact the work we do. We look forward to reviewing your submission.
